

The quickest skirting in the world!

The new skirting of Döllken proves that it is possible for a skirting to look good and be useful as well. The clever hinge mechanism provides easy painting, cable access mitre options and seamless finish.

The new MIG Skirting System is easy to install, hide cables, retro fit for renovations FAST!

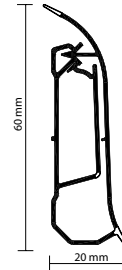

Just scan the QR code and you can see an animated video about the installation of the Quick MIG!

The new MIG - a highlight on every wall:

- **Easy:** The clever hinge mechanism
- **Useful:** Renovation works without deinstalling the skirting
- **Invisible:** The concealed cable channel
- **Additional:** Accessories for laying through the cables
- **Transition:** Flexible lips for uneven walls and floors
