

USL 60 Clip

with clip fixture and soft lip

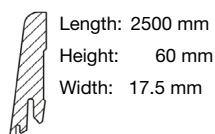

Product information

One of our best-sellers, the Modern 60 foam strip, has been updated after 2 years and is now also available as a clip-on version. Its special mounting clips ensure simple, perfect installation.

The newly incorporated soft lip provides a clean joint with the floor, as well as protection, e.g. when wiping, from damp, and is therefore completely suitable for damp areas.

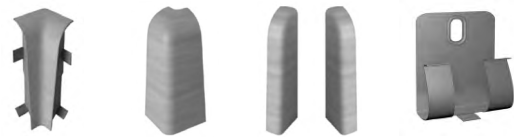

The basic patterns (see pattern listing) of the Modern 60 Clip foam skirting board already cover a wide range of existing floor coverings. Uniformity is the buzzword, especially with trendy vinyl coverings.

The universal, uni-colour, wooden-structured accessories eliminate the need for cutting mitre profiles.

Length: 2500 mm
Height: 60 mm
Width: 17.5 mm

We are thinking about your health...

Residential and construction products which release airborne organic compounds into the air pose a serious risk to health. The globally recognised GREENGUARD standard is a good guide when selecting low-emission - and therefore more health-friendly - alternatives. Döllken-Weimar (Nohra) is the first German skirting board manufacturer to certify its entire range in accordance with the stringent GREENGUARD GOLD guidelines.
