

S 60 flex life TOP

S 100 flex life TOP

Tips by the Pro

Also note the Installation instructions and videos at www.doellken-profiles.com, in the Doellken App or on YouTube.

The Döllken Profiles cored skirtings are unique. High-grade cores made of FSC-certified softwood fibres are wrapped in high performance polymers, rendering the cored skirting very robust. The cored skirting boards are particularly environmentally friendly and carry various certifications.

Particularly practical and time-saving: All cored skirting boards may be professionally installed using the Döllken punch, for instance.

Advantages at a glance:

- flexible lips to wall and floor / no re-jointing required
- robust surface
- highly flexible skirting
- use the punch for seamless outside and accurate inside corners
- no accessories required
- no dirt or noise when cutting the skirting
